-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. Claims 1-8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In each of independent claims 1, 3, and 5, the uses of the phrase "a more or less pointed end" are indefinite and unclear in context. Taken literally, the phrase could range from no pointedness at all to a perfect point. Taken in the slang sense of the phrase, it could mean "generally pointed." In context, it can not be readily ascertained what the phrase means.

In each of claims 2-5, the uses of the phrase "in the vicinity of the end" are indefinite and unclear in context.

In each of claims 2-5, "the vicinity" lacks antecedent basis.

Claim 5 appears that it may be a single-means or single-element claim, but this is not clear due to the lack of a well-defined preamble. For example, please note the presence of the transitional word "comprising" on line 2 after the recitation of the projectile, missile, and nose. Please see MPEP 2164.08(a). Correction is hereby **required**.

Dependent claims 2, 4, and 6-8 are unclear in that they depend from unclear independent claims 1, 3, and 5.

2. The drawings are objected to because box-type elements 11 and 12 in Figure 5 must be descriptively labelled per 37 CFR 1.84(o). A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

For example, if a box-type drawing element represents an RF amplifier, then it must be labelled "RF AMPLIFIER" or something reasonably similar that has clear antecedent in the specification. Correction is hereby **required**.

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

The examiner-cited prior art herewith is of general interest in that each piece of prior art relates to systems and methods of missile propulsion and/or controlling variously using ions/plasma. None of the cited art could be meaningfully applied due to the lack of clarity of claims 1-8.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bernarr E. Gregory whose telephone number is (703) 306-5765. The examiner can normally be reached on weekdays from 7:30 AM to 4:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thomas H. Tarcza, can be reached on (703) 306-4171. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
